FourSix46 Global Ltd

Self-Employed Driver Policy

Version 1 • Updated: 24/11/2025

Owner: **Dinesh Koyyalamudi, Founder & Director**

Policy Statement

Driving for work is one of the highest-risk activities within the transport sector. FourSix46 Global Ltd ("the Company") is committed to ensuring that all self-employed drivers ("Contractors") who complete assignments on behalf of the Company operate safely, professionally, and in compliance with UK transport law and the Highway Code.

This policy applies to all contractors using:

- Company-supplied vehicles
- Their own vehicles ("grey fleet")
- Leased or rented vehicles

This policy forms part of FourSix46 Global Ltd's **compliance framework**.
It does **not** create an employer-employee relationship.

Non-Compliance

Failure to comply with this policy may result in:

- Suspension from receiving assignments
- Removal from the FourSix46 contractor network
- Reporting serious breaches to authorities (DVLA, Police, DVSA)
- Liability for losses caused by negligence, in accordance with the RHA Conditions

(Updated for RHA compliance — contractors are liable **only for their own negligence**, not beyond RHA limits.)

Policy Review

This policy will be reviewed annually or sooner if required.

1. Contractor Requirements

1.1 Driving Licence Checks

Contractors must:

- Hold a valid UK licence for their vehicle type
- Inform the Company immediately of any suspensions, bans, medical restrictions, or endorsements
- Notify DVLA of any change of details
- Provide consent for periodic licence checks

1.2 Fitness to Drive

Contractors must ensure they are medically fit, including:

- Meeting eyesight standards
- Not driving when unwell
- Not driving when excessively tired
- Reporting any medical conditions that may affect safety

DVLA-notifiable conditions must be disclosed to DVLA.

1.3 Alcohol, Drugs & Impairment

Zero-tolerance:

- No alcohol
- No illegal or recreational drugs
- No impairing prescription medication

Driving while impaired results in immediate removal.

1.4 Fatigue Management

Contractors must:

- Take breaks (15 min every 2 hours)
- Not accept work if overly tired
- Plan around high-fatigue hours where possible

2. Vehicle Requirements

2.1 Roadworthiness

All vehicles used must be:

- Roadworthy
- Maintained, MOT'd, taxed
- Clean and free of loose objects
- Checked daily (POWDER checks)

Unsafe vehicles must not be operated.

2.2 Safe Load Handling

(Aligned with RHA Clause 5 – Load security responsibility)

Contractors must:

- Secure loads properly
- Stay within vehicle weight limits
- Use straps/restraints
- Secure tools, parcels, and personal items

2.3 Vehicle Security

Contractors must:

- Lock vehicles when unattended
- Keep keys secure

- Avoid leaving vehicles idling or unlocked

2.4 Engine Idling

Engines must be switched off when:

- Stationary for more than 1 minute
- Loading or unloading
- On breaks

Except for safety or extreme weather circumstances.

2.5 Private Use of Company Vehicles

Company vehicles may **not** be used for personal purposes unless authorised.

3. Journey Requirements

3.1 Planning

Contractors must:

- Plan routes responsibly
- Check weather & traffic
- Ensure sufficient fuel
- Avoid unsafe road/time conditions

3.2 Driving Behaviour

Contractors must:

- Follow the Highway Code
- Drive at appropriate speeds
- Maintain safe following distances
- Drive defensively and respectfully

3.3 Speed Compliance

Contractors must obey:

- All posted speed limits
- Van-specific speed limits
- Adjustments required during bad weather

3.4 Seatbelts

Seatbelts must be worn by drivers and authorised passengers unless medically exempt.

3.5 Driver Distraction

Zero-tolerance:

Prohibited while driving:

- Using handheld phones
- Texting or emailing
- Adjusting satnav while moving
- Eating/drinking
- Participating in calls

Calls may only be taken while safely parked with engine off.

3.6 Adverse Weather

Contractors must:

- Adapt driving
- Delay journeys if conditions make driving unsafe
- Carry warm clothing, food, water

3.7 Passengers

Contractors must NOT:

- Carry unauthorised passengers

- Carry children or animals
- Pick up hitchhikers

3.8 Smoking

Smoking or vaping is prohibited during work-related travel.

4. Incident & Breakdown Requirements

4.1 Breakdowns

Contractors must use:

- The Company's breakdown provider (for Company vehicles)
- Their own breakdown cover (for grey fleet)

4.2 Collisions

In any collision:

1. Stop immediately
2. Move to safety
3. Call emergency services if needed
4. Exchange details
5. Take photographs
6. Report to the Company within 24 hours
7. Submit a full written incident report

Contractors must **not** admit liability.

4.3 Incident Reporting

Contractors must immediately report:

- Collisions
- Near misses

- Motoring offences
- Dangerous occurrences
- Customer complaints
- Vehicle damage

5. Grey Fleet Requirements

Contractors using personal vehicles must ensure:

- MOT is valid
- Vehicle tax is current
- Insurance includes **business use**
- Vehicle is maintained according to the manufacturer
- Regular safety & roadworthiness checks
- Documentation is provided upon request

6. Responsibilities

6.1 Company Responsibilities

FourSix46 Global Ltd will:

- Provide clear safety guidance
- Ensure contractors understand load security requirements
- Investigate incidents fairly
- Remove unsafe or non-compliant drivers

6.2 Contractor Responsibilities

Contractors must:

- Follow this policy
- Maintain vehicle safety
- Report changes in health, licence, or vehicle status

- Drive safely and professionally
- Report incidents immediately
- Maintain required documentation

Non-compliance may result in removal from the network.

7. RHA Alignment Clause (Required for Compliance)

All work performed by Contractors forms part of the Company's operations under the **RHA Conditions of Carriage 2024**.
Contractors must comply with any driver-related requirements arising under those Conditions, including safety, security, and load handling expectations.

This clause ensures legal alignment with RHA.
